Friends are shattered and two families crumble after a fateful week on the seacoast. With four sides to this psychological family drama, who will you believe? Relationships were torn apart. Friendships shattered. And childish innocence destroyed. Now, after years of silence, a letter arrives that begs for help. A letter that exposes dark secrets. Then Rosie’s daughter Daisy’s fragile hold on reality begins to unravel. Teenage son Max blames himself for everything that happened that long hot summer. And Nick must confront his own version of events. As long-repressed memories bubble to the surface, the past has never seemed more present and the truth more murky. There are four sides to this story. Who will you believe?

The Betrayals: A Novel

Australians know Libby Trickett as one of our golden girls of swimming. Winner of multiple Olympic gold medals and setter of world records, Libby wasn’t just a champion, she was Australia's girl next door, the humble superstar from suburban Brisbane with the infectious grin and sunny nature. Yet what we saw on the surface - the confidence, competitiveness and warmth that were her hallmarks - belied the very private battles she fought in her own head. Beneath the incredible achievements and that trademark smile, Libby suffered from crippling depression. During her swimming career she managed to keep her demons more or less at bay, but when an injury forced her to retire in 2013 Libby was suddenly thrust into an unfamiliar world. With few, if any, qualifications to handle it, her self-doubts began to overwhelm her. The birth of her first baby added further complications to her fragile mental health, and she suffered intense postnatal depression. When she finally recognised the depression for what it was, and sought help for it, it was a major turning point in her life. Libby’s memoir is an extraordinarily candid, revealing and inspiring account of both her public life as one of our greatest swimming champions, and her struggle to overcome her mental health challenges.

Beneath the Stars

For more than a century, skin lighteners have been a ubiquitous feature of global popular culture—embraced by consumers even as they were fiercely opposed by medical professionals, consumer health advocates, and antiracist thinkers and activists. In Beneath the Surface, Lynn M. Thomas constructs a transnational history of skin lighteners in South Africa and beyond. Analyzing a wide range of archival, popular culture, and oral history sources, Thomas traces the changing meanings of skin color from precolonial times to the postcolonial present. From indigenous skin-lightening practices and the rapid spread of lighteners in South African consumer culture during the 1940s and 1950s to the growth of a billion-dollar global lightener industry, Thomas shows how the use of skin lighteners and experiences of skin color have been shaped by slavery, colonialism, and segregation as well as by consumer capitalism, visual media, notions of beauty, and protest politics. In teasing out lighteners’ layered history, Thomas theorizes skin as a site for antiracist struggle and lighteners as a technology of visibility that both challenges and entrenches racial and gender hierarchies.

Beneath the Surface describes life beyond the superficial layer of reality from a deeper perspective, drawing from mystical Jewish sources that discuss answers to life’s existential questions. Who am I and why am I here? How can I improve my relationships with others? Why must I endure so many tests and struggles? How should I define success? Is there anything more to this life than what meets the eye? Bortz inspires with engaging stories and parables selected from ancient Jewish texts that are delivered in a practical style, relevant to our day-to-day 21st century lives. Short and to the point, yet
maintaining the depth of wisdom in the original idea, this book of self improvement contains no fluff. Each section offers something valuable to the uninitiated and expert alike. While many advanced sources are discussed, no previous knowledge is necessary before reading this book. Our universe is wondrous, full of a beauty that is found in its myriad complex details. More incredible, though, is the beauty found within, if only we took the time to notice. Each of us has a vital role to play in the purpose of our universe. By discovering our soul, the priceless treasure inside, we can light up our lives and the world around us for the better. Humanity needs it now more than ever.

Do Something for Nothing Something dark dwells in the deep crevices of every soul. Erna Grcic’s poetry collection Beneath the Surface revolves around the secrets, weaknesses, and monsters that creep beneath the surface of the everyday existence. She deals with those nightmarish eyes that glint in the darkness behind each smile, each long gaze into the distance, each daydream. It’s an emotional and winding path into the poet’s own past that deals with the journey from childhood to womanhood, war, love, ageing, and passage of time.

The Watertower On a scorching hot summer day in Preston, Australia, Spike and Bubba go for a swim in the old water tower which casts a long dark shadow across everything in the area.

Beneath the Surface Shows how analogy-making pervades human thought at all levels, influencing the choice of words and phrases in speech, providing guidance in unfamiliar situations, and giving rise to great acts of imagination.

Beneath the Surface This volume is an introductory text to the individual and organizational dynamics by an author with extensive experience in the field. Beneath the Surface Racism has never been simple. It wasn’t more obvious in the past, and it isn’t less potent now. From the birth of the United States to the contemporary police shooting death of an unarmed Black youth, Beneath
the Surface of White Supremacy investigates ingrained practices of racism, as well as unquestioned assumptions in the study of racism, to upend and deepen our understanding. In Moon-Kie Jung’s unsettling book, Dred Scott v. Sandford, the notorious 1857 Supreme Court case, casts a shadow over current immigration debates and the “war on terror.” The story of a 1924 massacre of Filipino sugar workers in Hawai’i pairs with statistical relentlessness of Black economic suffering to shed light on hidden dimensions of mass ignorance and indifference. The histories of Asians, Blacks, Latina/os, and Natives relate in knotty ways. State violence and colonialism come to the fore in taking measure of the United States, past and present, while the undue importance of assimilation and colorblindness recedes. Ultimately, Jung challenges the dominant racial common sense and develops new concepts and theory for radically rethinking and resisting racisms.

Although contributors draw largely upon object-relations traditions in psychoanalysis, other influences are also present, particularly from continental philosophy and the sociology of the emotions. It develops an approach to epistemology - how we know what we know, which is strongly informed by a living approach to psychoanalysis, not just as a theory but as a way of being in the world - that is as a stance.
Beneath the Surface The Mullica Valley estuary and its watershed, formed over the last 10,000 years, are among
the cleanest estuaries along the east coast of the United States. This 365,000-acre ecosystem benefits from a
combination of protected watershed, low human population density, and general lack of extensive development. In
Beneath the Surface, marine scientist Ken Able helps the reader penetrate the surface and gain insights into the
kinds of habitats, animals, and plants that live there. Readers will gain a better understanding of the importance of
these shallow waters; how the amount of salt in the water determines where animals and plants are found in
estuaries; the day-night, seasonal, and annual variation in their occurrence; and how change is occurring as the
result of climate variation. Throughout the book are insightful sidebars telling intimate stories of where various
animals come from and where they are going as they travel through the estuary on their way to and from other
portions of the east coast. Beneath the Surface emphasizes the kinds and importance of the animals and plants that
live beneath the surface of this unique ecosystem.

everywhere.” --Sophia Bush, actor and activist "Joshua Coombes takes a simple concept--giving free haircuts to
homeless people--and turns it into an spiritual parable. Armed with clippers, scissors, dry shampoo, and
unpretentious decency, Coombes introduces the reader to those he met living on the streets of America, Australia,
Italy, France, Holland, and his native UK, and in a warm and witty voice transforms his characters from invisible
to unforgettable just as he did with the haircuts.” --Danny Goldberg, author of Serving the Servant: Remembering
Kurt Cobain "Cutting someone’s hair is a deeply intimate act, and when done for free, it conveys a profound
affirmation of personal value. Do Something for Nothing reclaims the revolutionary power of small acts of
human compassion across the boundaries that too often divide us.” --Mark Andersen, coauthor of We Are the
Clash: Reagan, Thatcher, and the Last Stand of a Band That Mattered ”Joshua Coombes’s work gives us what we so desperately need right now: hope, optimism, kind curiosity, and real human connection. This book will make you want to do something, just because you can.” --Emma Gannon, author of The Multi-Hyphen Life When you’re on the fringes of society, being noticed can mean everything. In 2015, while working at a London hair salon, Joshua Coombes took to the streets with his scissors to build relationships with people sleeping rough in the capital. This inspired him to begin posting transformative images on social media to amplify their voices. These stories resonated and thousands of people got involved in their own way. #DoSomethingForNothing was born--a movement that encourages people to connect their skills and time to those who need it. Via the simple act of a haircut, readers are taken on a geographical and emotional journey into the lives of humans experiencing homelessness in different cities across the world.
